**Welcome**

USDA eAuthentication is the system used by USDA agencies to enable customers to obtain accounts that will allow them to access USDA Web applications and services via the Internet. This includes things such as submitting forms electronically, completing surveys online, and checking the status of your USDA accounts.

Please note that USDA will only accept eAuthentication Accounts from individuals.

Currently USDA eAuthentication does not have the mechanism to issue accounts to businesses, corporations or other entities.

To apply for a USDA eAuthentication Account, please visit the [Create an Account](#) Page.
